INJURY/ILLNESS/ABSENCE/LATENESS
<ul style="list-style-type: none"><li>• ABSENCE/ILLNESS: [REDACTED]</li></ul>
PERFORMANCE
<ol style="list-style-type: none"><li>1) We had a stellar show performance-wise, both on-stage and in the pit, while experiencing a few minor technical difficulties behind the scenes.</li><li>2) DonQ's beard got stuck on his mic as he went to take it off, leading into the It's All The Same.</li></ol>
TECHNICAL
<ol style="list-style-type: none"><li>1) As [REDACTED] was out sick, [REDACTED] absorbed their track. We were late on the final sign cue- this has been clarified, as I call it, in the event [REDACTED] is out tomorrow.</li><li>2) Thank you, [REDACTED], for addressing the broken "broken lance" and the horse head, respectively.</li><li>3) We had recurring issues with [REDACTED]'s mic. At first, it would drop out, which was fixed by re-seating the connection to the pack. However, we experienced a back-and-forth connection wise throughout the song A Little Gossip. [REDACTED] is troubleshooting the pack and will try a new element for tomorrow.</li><li>4) During the second stair-in cue, the pull lock became engaged, causing [REDACTED] to have to fight against the stairs to get them in. After examining the issue after the fact, we were able to replicate it and have identified a potential strategy to get us through the show tomorrow. As this was going on, the accompanying sound cue was late on my end. We will conduct a thorough rigging inspection and test the stairs before the show.</li></ol>

- 5) For the first few minutes of the show, we lost the fire pit lights. This was caused by human error on my end following the addition/removal of the skybox lights from the night before. The issue was rectified by restoring to a previous show file backup.
